

Most important features for the Declarant Portal for release CBAM 1.3.1.0

CBAM 1.3.1.0 - Available in production as of 1/10

Main features/ changes:

- Quarterly reporting starts on the 1st day of the reporting period → From 1/10/2024 both Q3 2024 and Q4 2024 reports can be created. From 1/1/2025 – report for Q1 2025 can be created. Note: Submission / Modification end dates remain the same.
- From Q3 2024 and forward - “Type of Determination (Direct/Indirect)” only the “Actual Data” option will be visible except for electricity where the “Default Values” option will be still available to be selected.
- Starting from Q3 2024, the “Carbon Price Due” tab has been simplified. Only one entry can be added, which will correspond to the actual product. Note that the CN Code is prefilled with the relevant code for which the carbon price is applicable.
- Indirect Emission Qualifying Parameters removed & Direct Emission Qualifying Parameters renamed to “Emission Qualifying parameters” from Q3 2024 and future reporting periods.
- Request delay submission by Declarant, for technical reasons is no longer available.
- Providing URL/ link of an attachment is no longer available.
