RESEAU TRANSIT

NETZ VERSANDVERFAHREN

ADDRESS BOOK

ANNUAIRE

ADRESSENLISTE

Preface

With its « Action Plan for Transit in Europe – A New Customs Policy »¹, the European Commission set out the framework for a fundamental reform of the Customs transit regimes, in close co-operation with the administrations of the Member states as well as of the partner countries to the Common transit Convention², together with the European associations representing the users of the procedures.

The objectives of the Action Plan include an improved operational co-ordination between national administrations for the management and monitoring of transit operations, as well as the implementation of a communication and partnership policy, at European level, with economic operators, so that the transit regimes better meet the needs of international commerce.

A Europe-wide operational network comprising more than 35 national Co-ordinators and several hundred regional and local transit liaison officers was therefore established. Part of its role is to allow regular dialogue with the operators at the national and local levels, and to facilitate their contacts with the Customs services over all aspects of the operation of the transit and TIR regimes. However, it does not replace the existing decision-making procedures in the Customs Administrations.

With the Transit Network Address book, the Commission services and Customs administrations wish to make available a new structure of communication to users of these procedures, more in adequacy with the nature and specificity of transit operations.

This address book will be regularly updated. Moreover, its usage as well as its suitability will be carefully monitored by the Commission services. In order to ensure a wide circulation of the document, it is available on the Internet server « Europa » at the following address:

http://ec.europa.eu/taxation_customs/resources/documents/customs/procedural_aspects/transit/common_community/taxud-978-98.pdf

Préface

Avec son « *Plan d'action pour le transit en Europe – Une nouvelle politique douanière* »¹, la Commission européenne a tracé le cadre dans lequel elle a entrepris de réformer en profondeur le fonctionnement des régimes douaniers de transit, en étroite collaboration avec les administrations des douanes des Etats membres et des pays partenaires de la convention de transit commun² ainsi qu'avec les associations professionnelles européennes représentatives des opérateurs économiques utilisateurs de ces procédures.

Parmi les objectifs poursuivis figurent une meilleure coordination opérationnelle des administrations nationales entre elles, pour la gestion et le suivi des opérations de transit, ainsi que la mise en oeuvre, au plan européen, d'une politique de communication et de partenariat avec les opérateurs économiques, pour une meilleure adéquation des régimes de transit aux besoins du commerce international.

Un réseau opérationnel de plus que 30 coordinateurs nationaux et plusieurs centaines de correspondants régionaux et locaux a donc été constitué à cet effet à travers l'Europe. Il a notamment pour rôle de permettre un dialogue régulier avec les opérateurs, au plan national comme au plan local, et de faciliter leurs contacts avec les services des douanes pour toute question liée à la mise en oeuvre des régimes de transit et TIR. Il ne remplace cependant pas les circuits décisionnels existants au sein des administrations douanières.

Avec l'annuaire du « réseau transit », les services de la Commission et les administrations douanières concernées souhaitent mettre à la disposition des utilisateurs de ces procédures une nouvelle structure de communication, plus en rapport avec la nature et avec la spécificité des opérations de transit.

Cet annuaire fera l'objet de mises à jour régulières. En outre, l'évaluation de l'utilisation du « Réseau transit » ainsi que les moyens de l'améliorer seront attentivement examinés. Pour permettre une large diffusion de ce document, ce dernier est accessible sur le serveur Internet « EUROPA », à l'adresse suivante:

http://ec.europa.eu/taxation_customs/resources/documents/customs/procedural_aspects/transit/common_community/taxud-978-98.pdf

Vorwort

Mit ihrem « Aktionsplan für das Versandverfahren in Europa – eine neue Zollpolitik »¹ hat die Europäische Kommission den Rahmen gesetzt, die zollrechtlichen Versandverfahren in enger Zusammenarbeit mit den Zollverwaltungen der Mitgliedstaaten und der Partnerländer der Konvention über das gemeinsamen Versandverfahren², sowie gemeinsam mit den europäischen Berufsverbänden als Vertreter der diese Verfahren anwendenden Wirtschaftsbeteiligten tiefgreifend zu reformieren.

Zu den verfolgten Zielen gehören insbesondere eine bessere operationelle Koordinierung der einzelstaatlichen Dienststellen untereinander hinsichtlich der Verwaltung und Kontrolle der Versandverfahren; hierzu gehören ferner die Schaffung auf europäischer Ebene einer Politik der Kommunikation und der Partnerschaft gegenüber den Wirtschaftsbeteiligten, um die Versandverfahren besser an die Bedürfnisse des internationalen Warenverkehrs anzupassen.

Zu diesem Zweck wurde in Europa ein Netz von mehr als 30 nationalen Koordinatoren und von mehreren Hundert örtlichen und regionalen Beauftragten für das Versandverfahren geschaffen. Diese Maßnahme soll einen ständigen Dialog auf einzelstaatlicher und örtlicher Ebene mit den Beteiligten ermöglichen und die Kontakte mit der Zollverwaltung in solchen Fragen erleichtern, die mit der Anwendung der Versandverfahren sowie des TIR-Verfahrens zusammenhängen. Hierdurch soll selbstverständlich nicht der existierende Entscheidungsmechanismus der Zollverwaltungen ersetzt werden.

Den Anwendern der Verfahren soll mit dem Adressbuch «Netz Versandverfahren» von den Kommissionsdienststellen und den einzelstaatlichen Zollverwaltungen eine neue, an die Besonderheiten der Versandverfahren angepasste Kommunikationsstruktur an die Hand gegeben werden.

Dieses Adressbuch wird regelmäßig auf den neuesten Stand gebracht. Die Anwendung des Netzes sowie seine Fortentwicklung sollen ferner aufmerksam verfolgt werden. Um eine weite Verbreitung des Adressbuches sicherzustellen, kann es auf dem Internet Server «EUROPA» unter folgender Adresse konsultiert werden:

http://ec.europa.eu/taxation_customs/resources/documents/customs/procedural_aspects/transit/common_community/taxud-978-98.pdf
