16.3. ►► Derogation for forced diversion	Application of § 12 of Circular No D.D. 224.574 (In accordance with § 2, derogations from the provisions of §§ 10 and 11 may be granted. EEC Document No XXI/1667/94 of 14 November 1995, laying down certain criteria in respect of duly justified reasons for the acceptance of a customs declaration at a customs office other than that normally responsible, is reproduced in Annex 5, for information purposes. Duly justified reasons can include *a forced diversion* to reach the normally responsible customs office (i.e. when the normally responsible customs office is at some distance away and in the wrong direction from the place of establishment, rendering the application of the principle referred to at § 1) uneconomic, and *an urgent consignment* when the normally responsible customs office is closed.	4002 + identification No or other reference
16.4. ►► Derogation for an urgent consignment	If, for duly justified reasons, export formalities cannot be carried out at the normally responsible customs office, the declaration must be lodged with the first customs office on or close to the normal route taken to reach the declared destination. Derogation must be **authorised by the local chief customs officer** at the office where the goods are presented. Authorisation shall be given by indicating the following in box 44 of the export declaration: "Application of § 12 of Circular No D.D. 224.574", authenticated by means of the seal of the office and the signature of the local chief customs officer.	4003 + identification No or other reference
16.5. ►► Derogation for another reason	Any derogation granted must be reported to the regional director in charge of the normally responsible customs office. The latter must check that no irregularity has occurred in respect of the derogation, reminding the exporter of the principles of Article 161(5) CCC and inviting him to comply, including through the simplified export procedures.)	4004 + identification No or other reference

NB:
" Other" (for example 9+P1) is designed to give declarants the opportunity to mention a document that is not yet coded on the declaration. For example, a 35-character free text space is added to code **9+P1** ("+P" means that a parameter must be given, in this case the name of the document that is not yet coded, together with the identification data). If this space is inadequate, the rest of the text must be shown in the free text space of the code bearing a higher parameter number, in this case **9+P2**, etc.

Internet draft 1.12.2007 (consolidated 01.07.08)

4. "Other"

"Other" (for example 9+P1) is designed to give declarants the opportunity to mention a document that is not yet coded on the declaration.

For example, a 35-character free text space is added to code 9+P1 ("+P" means that a parameter must be given, in this case the name of the document that is not yet coded, together with the identification data). If this space is inadequate, the rest of the text must be shown in the free text space of the code bearing a higher parameter number, in this case 9+P2, etc.
