Explanations from Member States:

ES	* The column EU includes cases in which there are both EU and Non EU entities. The column Non EU only includes cases with Non EU entities. These statistics do not include domestic cases without transnational effects.
LU	Given that the unilateral APA may contain may contain EU and non-EU transactions, the split EU and non-EU is only made for bilateral APA's.
NL	Columns 1 to 6 not administered; Columns 8, 10, 12 and 14 split EU and Non-EU not administered. Numbers align with 2019 APA annual report.
PL	In 2019 (as in previous years) APA covering EU and non-EU countries in one application were identified. After quality analysis, in majority of such cases the EU part (greatly) prevails. As a result for statistical purposes such 'mixed' APAs were qualified as EU (note the difference in previous years, where such APAs were qualified as non-EU, as the non-EU part prevails).

The questionnaire aims to collect information about APAs for companies and PEs.

The reference year for this document is 2019 (situation prevailing at the end of 2019).

Most of the columns are broken down into APAs between EU MS and non-EU countries.

The terms used in the table should be understood as follows:

"APA": is an arrangement that determines, in advance of controlled transactions, an appropriate set of criteria (e.g. method, comparables and appropriate adjustments thereto, critical assumptions as to future events) for the determination of the transfer pricing for those transactions over a fixed period of time.

"APA in force": an APA is considered as "in force" when it was granted before the end of the reference year (e.g. 2019) and the agreement's term covers the reference year. Therefore, an APA granted during the reference year (N year) but starting in N+1 year is not counted as "in force at the end of the reference period". The figure in the column "total number of APAs in force" should be the result of adding the following two columns: bi- and multilateral APAs in force and unilateral APAs in force.

Counting of APAs: If an APA covers transactions with more than one company of the MNE in the respective MS (e.g. Subsidiaries A and B in MS X each having transactions with parent company P in State Y covered by the APA), each APA should be counted (here 2 APAs in MS X).

Counting of multilateral APAs: A multilateral APA should be considered as several bilateral APAs and should also be counted that way for statistical purposes, i.e. a multilateral APA signed by member State A, member State B and member State C is counted, from the perspective of State A, as a bilateral APA between A and B, a bilateral APA between A and C and therefore as two APAs. Likewise, a request for such a multilateral APA is counted as two requests.

"Requests received": an APA request should be counted as received in the year the formal written APA request was filed. The term "APA request" has a meaning in line with section 4.52 and 4.53 of the EU JTPF APA Guidelines, i.e. a formal application supplemented with appropriate information. Pre-filing requests are therefore not considered.

<p>"APA granted": an APA is considered as granted</p> <ul style="list-style-type: none"> • when the Competent Authority(ies) has (have) formally agreed to the APA, whatever form this formal agreement takes (exchange of letters, signature of the agreement, ...) and • all the subsequent formal proceedings that may be required are fulfilled (e.g. a formal agreement by the taxpayer or an advance ruling granted to the taxpayer). <p>That is, if a bilateral APA was signed by the Competent Authorities in year N and e.g. the implementing domestic advance ruling or the taxpayer's agreement was only granted in N + 1, the APA is counted as granted in N +1².</p> <p><i>2) Mismatches may result both from different member States' approaches (e.g. one MS' reference date is that of the closing letter and for the other MS, it is that of the taxpayer's agreement) and also from the internal implementation in a different year of the proposed approach. Although these discrepancies are considered as tolerable for the purpose of these statistics, CAs may want to avoid them by informing each other about subsequent proceedings and agree on the date they consider the APA as finally granted.</i></p>
<p>"APA applications rejected": an APA is considered as rejected when an APA application is not accepted by the tax administration or negotiations to reach a bilateral or multilateral APA failed and therefore no APA was granted.</p>
<p>"Average time in months to negotiate the APAs": this column indicates on average the period between the time an APA request was received and the formal agreement of the APA. Unilateral APAs are excluded from the calculations.</p>
