TABLE OF CONTENTS

LIST OF TABLES

1 INTRODUCTION

1.1 Objective of this document

This document defines the Test scenario and Test Plan to be followed in order to verify that the conversion of the TARIC3 data in EDIFACT2 format is successful.

The test cases described here should be performed in order to evaluate proper implementation of the functionalities according to the requirements.

1.2 Structure of this document

This document contains all the test cases required to test the TARIC3 to TARIC2 Output Bridge file conversion and that the TARIC3, within the CDCO system, can generate an output file in TARIC2 EDIFACT format.

This document is composed of the following chapters:

Chapter 1 gives a small introduction;

Chapter 2 presents the testing environment;

Chapter 3 introduces the test scenarios.

Chapter 4 contains the test cases, sub-divided per type of information exchange (Full extraction data and Incremental extraction data).

1.3 Intended Audience

This document is intended for people responsible for:

- Testing the TARIC2 EDIFACT file format into the MSA in the TARIC3 system (after conversion).

- The file comparison between the TARIC2 EDIFACT file and the TARIC3 EDIFACT file.

1.4 Abbreviations and acronyms

CCN	Common Communication Network
CDCO	Centrally Developed, Centrally Operated
EDIFACT	Electronic Data Interchange For Administration, Commerce and Transport. The international EDI standard developed under the United Nations.
IDS	Interface Data Specification
ISO	International Organisation for Standardization
ITSM	Information Technology Service Management
MS	Member State
TARIC	TARif Intégré Communautaire
XML	eXtensible Markup Language

Table 1: Abbreviations and acronyms

1.5   Reference documents

Reference	Description
TARIC3-OUB-PM	TARIC3 Output Bridge – Process Model –v1.00-EN

Table 2: Reference documents

1.6   Applicable documents

Reference	Description
TARIC3-IDS	TARIC3-Interface Data Specification 1.Principles-v0.41-EN TARIC3-Interface Data Specification 2.Elements-v0.42-EN TARIC3-Interface Data Specification 3.Records-v0.43-EN TARIC3-Interface Data Specification 3.Rules-v0.42-EN
TARIC2-IDS	TARIC2-Interface Data Specification 1.Principles-v0.41-EN TARIC2-Interface Data Specification 2.Elements-v0.42-EN TARIC2-Interface Data Specification 3.Records-v0.43-EN TARIC2-Interface Data Specification 3.Rules-v0.42-EN

Table 3: Applicable documents

2   TEST ENVIRONMENT

2.1   Approach

The approach is o fill the TARIC3 database with the required test data, based on the TARIC2 and TARIC3 records. Create the EDIFACT2 file from the TARIC3 system, data is converted, and check the results. Finally compare the EDIFACT2 file with the EDIFACT3 file and check the results.

2.2   Test scenario coverage

The conformance test plan covers the conformance test scenarios. For each conformance test scenario, one or several test cases are defined.

2.3   Naming conventions

Each test case defined in this conformance test plan has a unique identifier that has the following structure:

<affected-data>_<sequence_number>

where:

<affected-data> is the identifier of the data affected by the test case; *reg* (legal regulation), *bas* (base regulation), *mod* (modification regulation), *pror* (prorogation regulation), *fts* (full temporary stopped regulations), *abr* (abrogation regulation), *abract* (abrogation regulation action), *ear* (explicit abrogation regulation), *car* (complete abrogation regulation), *meas* (measure), *made* (measures-agricultural duty expression rule), *mt* (measure type), *mts* (measure type series), *de* (duty expression), *mcc* (measure condition code), *mac* (measure action code), *mu* (measurement unit), *muq* (measurement unit qualifier), *mou* (monetary unit), *moxr* (monetary exchange), *ce* (certificate), *cet* (certificate type), *nig* (goods nomenclature), *rt* (regulation role type), *rg* (regulation group), *ern* (export refund nomenclature), *acn* (additional code), *ct* (additional code type), *me* (meursing), *fo* (footnote), *fot* (footnote type), *dfar* (dynamic footnote association rules), *mtrg* (measure type regulation group link), *ctr* (country), *cg* (country group), *made* (measure agricultural duty expression rule), *ade* (agricultural duty expression), *amvr* (agricultural measure validation rule), *ps* (publication sigle), *tc* (transmission comment), *la* (language)

<sequence-number> is a sequential number that uniquely identifies a test case. The sequence number ranges from 001 to 999.

During the execution of a test case, several input messages can be sent to the system-to-system interface. Those messages receive a name with the following format:

<test-area>_<description>_<affected-data>.xml

where:

<test-area>_<description>_<affected-data> identifies the test case.

<test-area> is the area of the test, *Conv* (for Conversion).

<description> is a small description of the purpose of the test. This can be: *Refdata* (for reference data insertion), *Init* (for data initialisation).

<affected-data> is the kind(s) of data affected by the test case. The different values that this field can take are the same as those described above.

For each input message the expected output message is provided with a name being *<test-area>_<description>_<affected-data>.out.xml*.

The extraction file name has a name with the following format:
<aaaaaaaa><filetype>[<ll>].<format>

where*:*

<aaaaaaaa> is the application id as specified;

<filetype> is the file type (ARCH for archive data, ACT for static data);

<ll> is the language code;

<format> is the message format (.xml,.edifact).

In order to be compatible with Taric2 or Taric3 database implementation, edifact files are separated into 2 sub-formats: *edifact2* and *edifact3*.

2.4   Test case structure

A test case is composed of one or more messages that are specified in the following way:

Test case no.:   The identification number of test case to be executed.

Purpose: A short description of what is performed by the test case.

Precondition: All the required conditions that must be fulfilled before the test case is executed. Please note that the default precondition is mentioned only once.

Content: The description of the actions to be performed, together with the data to be used, when deemed relevant.

Expected output: The time that the tester has to register and check.

If there are blancks at the end of the line, they are replaced by "_".

The EDIFACT file, an extract of corresponding line at record is present and the different verification is highlight in yellow.

2.5 Preliminary conditions before executing the test plan

Before executing each test case of the conformance test plan, ensure that the database is empty and running that allows the proper execution of the tests.

2.6 General procedure

Each test case is given a unique identifier using the naming convention described in section 2.2. To execute a test case with a certain identifier all input messages related to this test case must be sent in sequence. There can be several input messages by test case. The tester must apply the prescriptions described in the input message specification to send the message. Also the precondition given in the test case must be respected.

For each test case, the steps below have to be executed:

The tester must send the input messages specified for the test case. The input messages are provided in the system test file. A user having the necessary profile must submit the messages to the system-to-system interface;

The system receives and processes the input messages, generates output messages and sends them back to the tester;

The tester receives the output messages and compares them with the expected output messages, which are specified in the test case specification. Also such expected output messages are provided in the system test file.

Extraction files are provided by the system. Several edifact files are provided. For each edicfact format (edifact2 and edifact3) there is:

Two language independent edifact files (ARCH for archive data, ACT for static data);

For each requested language: Two language dependant edifact files (ARCH for archive data, ACT for static data).

For each test case the tester has to check that information are correctly implemented into the edifcat files.

Unless a message cannot be decoded, all logical errors that can be detected are supposed to be reported.

A UNIX shell script is provided in the system test file to automate the processing of reference data insertion and the edifact files creation. To launch this script, execute the command: "*start_conversion.sh*". Edifact conversion verification has to be done by the tester following the test cases indication.

3 TEST SCENARIOS

3.1 Scenarios

3.1.1 Insert data elements

The following scenario describes the insert of a new data element.

3.1.2 Extraction EDIFACT2-EDIFACT3-xml files from the application TARIC3

The following scenario describes the extraction of EDIFACT2 files.

3.1.2.1 Scenario EXTRACT_UPD_EDIFACT2-3

(1)   In the application, select "Output bridge/Full extraction submission. In the screen, fill in "active date: 01/08/2009", "archive date: 01/01/1970", "Languages: EN, FR, NL, EL", "Formats type: xml, EDIFATC2, EDIFACT3"

(2)   Verify that the result is present in taric3/tmp/outputbridge:

   OBEXTACT.edifact2
   OBEXTACTEL.edifact2
   OBEXTACTEN.edifact2
   OBEXTACTFR.edifact2
   OBEXTACTNL.edifact2
   OBEXTARCH.edifact2
   OBEXTARCHEL.edifact2
   OBEXTARCHEN.edifact2
   OBEXTARCHFR.edifact2
   OBEXTARCHNL.edifact2

   OBEXTACT.edifact3
   OBEXTACTEL.edifact3
   OBEXTACTEN.edifact3
   OBEXTACTFR.edifact3
   OBEXTACTNL.edifact 3
   OBEXTARCH.edifact 3
   OBEXTARCHEL.edifact3
   OBEXTARCHEN.Edifact3
   OBEXTARCHFR.edifact3
   OBEXTARCHNL.edifact3

   OBEXTACT.xml
   OBEXTACTEL.xml
   OBEXTACTEN.xml

OBEXTACTFR.xml
OBEXTACTNL.xml
OBEXTARCH.xml
OBEXTARCHEL.xml
OBEXTARCHEN.xml
OBEXTARCHFR.xml
OBEXTARCHNL.xml

(3)   Verify that the extraction has been updated.

(4)   Save the EDIFACT2 files before the extraction of EDIFACT3 files. All records are contained in the files.

3.1.3 Verification EDIFACT2-EDIFACT3 files

The following scenarios describe the verification EDIFACT2-EDIFACT3 files.

3.1.3.1 Scenario VERIF_ARCH_EDIFACT2-EDIFACT3

(1)   Verification the files OBEXTARCH that contain a start date and an end date.

(2)   Find the following test cases:

N° TC	N° record	Description
DE_001	23000	Duty expression
MT_001	23500	Measure type
MT_004	24000	Additional Code type/Measure type
GA_005	25000	Geographical area
GA_006	25005	Geographical area description description period
GA_008	25015	Geographical area membership
MA_001	35500	Measure action
QO_001	36010	Quota order number origin
ERN_001	41010	Export refund nomenclature description period
ERN_003	41020	Footnote association - Export refund nomenclature
ME_001	43000	Measure

(3)   Verify that the data are present in the file. The file contains more data: REFDATA data and INIT data preparing for the tests.

3.1.3.2 Scenario VERIF_ACT_EDIFACT2-EDIFACT3

(1)   Verification the files OBEXACT that contain the data without end date.

(2)   Find the following test cases:

N° TC	N° record	Description
FOT_001	10000	Footnote type

N° TC	N° record	Description
FOT_002	10000	Footnote type
FOT_003	10000	Footnote type
FOT_004	10000	Footnote type
CET_001	11000	Certificate type
CET_002	11000	Certificate type
CT_001	12000	Additional code type
CT_002	12000	Additional code type
LA_001	13000	Language
LA_002	13000	Language
MTS_001	14000	Measure type series
MTS_002	14000	Measure type series
MTS_003	14000	Measure type series
RG_001	15000	Regulation Group
RG_002	15000	Regulation Group
RRT_001	16000	Regulation Role Type
PS_001	17000	Publication sigle
FO_001	20000	Footnote
FO_002	20000	Footnote
FO_003	20005	Footnote description period
CE_001	20505	Certificate description period
MES_001	22000	Measurement
DE_003	23000	Duty expression
MT_002	23500	Measure type
AC_001	24505	Additional code description period
AC_003	24515	Footnote association - Additional code
GA_001	25000	Geographical area
GA_002	25005	Geographical area description description period
GA_004	25015	Geographical area membership
GA_009	25000	Geographical area
GA_010	25005	Geographical area description description period
GA_012	25015	Geographical area membership
CAR_001	27500	Complete abrogation regulation
EAR_001	28000	Explicit abrogation regulation
BR_001	28500	Base regulation
MR_001	29000	Modification regulation
PR_001	29500	Prorogation regulation
FSR_001	30000	Full temporary stop regulation
MHP_002	32510	Footnote association - meursing heading
MHP_003	33000	Meursing subheading
MC_001	35000	Measure condition code
GN_002	40020	Footnote association - Goods nomenclature
ME_002	43010	Measure condition
ME_003	43015	Measureexcluded geographical area
ME_004	43020	Footnote association - Measure

(3)   Verify that the data are present in the file. The file contains more data:
REFDATA data and INIT data preparing for the tests.

3.1.3.3 Scenario VERIF_ARCHLG_EDIFACT2-EDIFACT3

(1)   Verification of the files OBEXTARCHLG that contain a start date and an end date. The system generates 4 files, one per language: EN, FR, NL, EL.

(2)   Find the following test cases:

N° TC	N° record	Description
MTS_004	14005	Measure type series description
MOU_001	22505	Monetary Unit description
DE_002	23005	Duty expression description
GA_007	25010	Geographical area description
MA_002	35505	Measure action description
ERN_002	41015	Export refund nomenclature description

(3)   Verify that the data are present in the file. The file contains more data: REFDATA data and INIT data preparing for the tests.

3.1.3.4 Scenario VERIF_ACTLG_EDIFACT2-EDIFACT3

(1)   Verification the files OBEXTACTLG that contain a start date. The system generates 4 files, one per language: EN, FR, NL, EL.

(2)   Find the following test cases:

N° TC	N° record	Description
FOT_005	10005	Footnote type description
FOT_006	10005	Footnote type description
CET_003	11005	Certificate type description
CT_003	12005	Additional code type description
LA_003	13005	Language description
RG_003	15005	Regulation Group Description
RRT_002	16005	Regulation Role Type Description
FO_004	20010	Footnote description
CE_002	20510	Certificate description
MU_001	21005	Measurement Unit description
MUQ_001	21505	Measurement Unit qualifier description
MT_003	23505	Measure type description
AC_002	24510	Additional code description
GA_003	25010	Geographical area description
GA_011	25010	Geographical area description
GNG_001	27005	Goods nomenclature group description
MHP_001	32505	Meursing heading text
MC_002	35005	Measure condition code description
GN_001	40015	Goods nomenclature description

(3)   Verify that the data are present in the file. The file contains more data: REFDATA data and INIT data preparing for the tests.

4 TEST CASES

For all the test cases, the tester must login inside TARIC3 as a Tester having the necessary profile to request an extraction data through the Output Bridge Satellite Application.

For testing purposes, all the destination filters included all the transmission items and all have the flag *for.update.process* set to true.

4.1 Alimentation of Database

4.1.1 Reference data

Execute the script start_conversion.sh that calls the xml file
TARIC3_CONVERSION_TST.xml

Name:	RDT_001
Purpose:	Filled the empty database with
Precondition:	Database is empty Respect the order of xml files to respect the interaction of the different files in TARIC3_CONVERSION.xml.
Content:	The TARIC3_CONVERSION.xml file respects the order of creation of reference data: 1-Conv_Refdata_languages.xml 2-Conv_Refdata_footnotetypes.xml 3-Conv_Refdata_TransmissionComment.xml 4-Conv_Refdata_CertificateType.xml 5-Conv_Refdata_AdditionalCodeType.xml 6-Conv_Refdata_MeasureTypeSeries.xml 7-Conv_Refdata_RegulationGroup.xml 8-Conv_Refdata_RegulationRoleType.xml 9-Conv_Refdata_PublicationSigle.xml 10-Conv_Refdata_MeasuementUnitQualifier.xml 11-Conv_Refdata_MeasuementUnit.xml 12-Conv_Refdata_Certificate.xml 13-Conv_Refdata_Footnote.xml 14-Conv_Refdata_MonetaryUnit.xml 15-Conv_Refdata_DutyExpression.xml 16-Conv_Refdata_CountryGroup.xml 17-Conv_Refdata_Countries.xml 18-Conv_Refdata_GoodsNomenclatureGroup.xml 19-Conv_Refdata_MeasureAction.xml 20-Conv_Refdata_MeasureConditionCode.xml 21-Conv_Refdata_MeursingTablePlan.xml 22-Conv_Refdata_MeusringAdditionalCodes.xml 23-Conv_Refdata_AdditionalCode.xml 24-Conv_Refdata_MonetaryExchange.xml 25-Conv_Refdata_MeasureType.xml

26-Conv_Refdata_LegalRegulation.xml
27-Conv_Refdata_BaseRegulation.xml
28-Conv_Refdata_ModificationRegulation.xml
29-Conv_Refdata_ExplicitAbrogationRegulation.xml
30-Conv_Refdata_CompleteAbrogationRegulation.xml
31-Conv_Refdata_ProrogationRegulation.xml
32-Conv_Refdata_FullTemporaryStopRegulation.xml
33-Conv_Refdata_GoodsNomenclature.xml
34-Conv_Refdata_Export_Refund_Nomenclature.xml
35-Conv_Refdata_Measure.xml

__Expected output:__ The TARIC3_CONVERSION_TST.xml file is correctly executed and put in the TARIC3 database transactions: Reply to the transaction: Status ok.

4.1.2   Initialization data

The test cases defined in this section cover the test scenarios section 3.

__Name:__   INIT_001

__Purpose:__   Filled the database with the data presented in the test cases.

__Precondition:__ The reference data are integrated
Respect the order of xml files to respect the interaction of the different files in TARIC3_CONVERSION.xml.

__Content:__   The TARIC3_CONVERSION.xml file respects the order of creation of initialisation data:
1-Conv_Init_FootnoteTypes.xml
2-Conv_Init_Footnote.xml
3-Conv_Init_Delete_RegulationRoleType.xml
4-Conv_Init_RegulationRoleType.xml
5-Conv_Init_RegulationGroup.xml
6-Conv_Init_QuotaNumberOrigin.xml
7-Conv_Init_PublicationSigle.xml
8-Conv_Init_MonetaryUnit.xml
9-Conv_Init_MeursingTablePlan.xml
10-Conv_Init_MeasureTypeSeries.xml
11-Conv_Init_MeasureType.xml
12-Conv_Init_MeasurementUnitQualifier.xml
13-Conv_Init_MeasurementUnit.xml
14-Conv_Init_Measurement.xml
15-Conv_Init_MeasureConditionCode.xml
16-Conv_Init_MeasureAction.xml
17-Conv_Init_LegalRegulation.xml
18-Conv_Init_GoodsNomenclatureGroup.xml
19-Conv_Init_GoodsNomenclature1.xml
20-Conv_Init_ExportRefundNomenclature.xml
21-Conv_Init_DutyExpression.xml
22-Conv_Init_CountryGroup.xml
23-Conv_Init_CertificateType.xml
24-Conv_Init_Certificate.xml

25-Conv_Init_BaseRegulation.xml
26-Conv_Init_ModificationRegulation.xml
27-Conv_Init_ExplicitAbrogationRegulation.xml
28-Conv_Init_CompleteAbrogationRegulation.xml
29-Conv_Init_ProrogationRegulation.xml
30-Conv_Init_FullTemporaryStopRegulation.xml
31-Conv_Init_AdditionalCodeType.xml
32-Conv_Init_AdditionalCode.xml
33-Conv_Init_Measure.xml
34-Conv_Init_Countries.xml
35-Conv_Init_Languages.xml

Expected output: The TARIC3_CONVERSION_TST.xml file is correctly executed and put in the TARIC3 database transactions: Reply to the transaction: Status ok.

4.2   Record 100 Footnote type.

4.2.1   FOT_001: Footnote type (10000).

Name: FOT_001

Purpose: Check the correct conversion of the attribute "Validity Period" of the Footnote Type.

Precondition: Make sure the "Conv_init_FootnoteType.xml" message has been successfully processed.

Content: Check the correct conversion of the attributes:
Foot note type "DB",
Start date "1970-01-01",
Footnote application code: 1.
Description:
EN: DB - Combined Nomenclature
FR: DB - Nomenclature combine
NL: DB - Gecombineerde Nomenclatuur
EL: Συνδυασμένη Ονοματολογία

Expected Output: In the EDIFACT 3 file:
The validity period is present in EDIFACT 3.
The Validity start date "01011970"
The Validity end date is "replaced by 8 blanks"

Record Footnote type (10000) is filled with the attributs:
Footnote type id "DB"
The Validity start date "01011970".
The Validity end date is replaced by 8 blanks
The application code is filled "1"
Ex: OBEXTACT
000000006910000+000000213DB 01011970……..1'

In the EDIFACT 2 file:
The footnote type extension is troncated at 2 characters in EDIFACT 2.
The Validity start date "01011970" is not present.

Record Footnote type (10000) is filled with the attribut:
Footnote type id "DB"
Application code: "1"
EX: OBEXTACT
00000000069<mark>10000</mark>+000000213<mark>DB1</mark>'

4.2.2 FOT_002: Footnote type (10000).

Name: FOT_002

Purpose: Check the correct conversion of the attribute "Footnote type extension" of the Footnote Type.
In the EDIFACT3 file, the footnote type accepts 3 characters.
In the EDIFACT2 file, the footnote type accepts 2 characters.

Precondition: Make sure the "Conv_init_FootnoteType.xml" message has been successfully processed.

Content: Check the correct conversion of the attributes:
Footnote type "DBB",
Start date: 1970-01-01
Footnote application code: 8.
Description:
EN: DBB - Conditions
FR: DBB - Conditions
NL: DBB - Voorwaarden
EL: Όροι
Application code: 8

Expected Output: In the EDIFACT 3 file:
The footnote type extension is present in EDIFACT 3.
The Validity start date "01011970"

Check if the data are filled in the EDIFACT3 file:
Record Footnote type (10000) is filled with the attribut:
Footnote type id "DBB"
The Validity start date "01011970".
The Validity end date is replaced by 8 blanks
The application code is filled "8"

Ex: OBEXTACT
00000000075<mark>10000</mark>+000000223<mark>DBB01011970 8</mark>'

In the EDIFACT 2 file:
The footnote type extension is troncated at 2 characters in EDIFACT 2.
The Validity start date "01011970" is not present.
Created a dooblenote between FOT_001 and FOT_002 in the extraction of EDIFACT2 file

Record Footnote type (10000) is filled with the attribut:
Footnote type id "DB"
Application code: "8"

Ex: OBEXTACT
0000000075<mark>10000</mark>+000000223<mark>DB8</mark>'

4.2.3   FOT_003: Footnote type (10000).

Name: FOT_003

Purpose: Check the correct conversion of the attribute "validity period"of
the Footnote Type.

Precondition: Make sure the "Conv_init_FootnoteType.xml" message has been
successfully processed.

Content: Check the correct conversion of the attributes:
Foot note type "TT",
Start date: 2001-01-01
End date: 2010-12-31
Description:

Description period: start date: 2000-01-01
Description:
EN: TTT 001-Caseins an/or caseinates forming part of goods shall not be regarded as milk proteins if the goods do not have any other constituent of lactic origin. Milkfat contained in the goods at less than 1 percent, and lactose at less than 1 percent, by weight, are not considered as other constituents of lactic origin. When customs formalities are completed, the person concerned must include in the appropriate declaration: "only milk ingredient: casein/caseinate", if such is the case.
FR: TTT 001-Quid? qui se etiam nunc subsidiis patrimonii aut amicorum liberalitate sustentant, hos aaa?
Nec minus feminae quoque calamitatum participes fuere

similium. nam ex hoc quoque sexu peremptae sunt originis altae conplures, adulteriorum flagitiis obnoxiae vel stuprorum. inter quas notiores fuere Claritas et Flaviana, quarum altera cum duceretur ad mortem, indumento, quo vestita erat, abrepto, ne velemen quidem secreto membrorum sufficiens retinere permissa est. ideoque carnifex nefas admisisse convictus inmane, vivus exustus est.

Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.

Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.

Ac ne quis a nobis hoc ita dici forte miretur, quod alia quaedam in hoc facultas sit ingeni, neque haec dicendi ratio aut disciplina, ne nos quidem huic uni studio penitus umquam dediti fuimus. Etenim omnes artes, quae ad humanitatem pertinent, habent quoddam commune vinculum, et quasi cognatione quadam inter se continentur.

Ego vero sic intellego, Patres conscripti, nos hoc tempore in provinciis decernendis perpetuae pacis habere oportere rationem. Nam quis hoc non sentit omnia alia esse nobis vacua ab omni periculo atque etiam suspicione belli?

Hui

NL: TTT 001-Caseïne en caseïnaten gebruikt in de samenstelling van een produkt worden niet beschouwd als melkproteïnen in het geval dat het produkt geen andere melkbestanddelen bevat. Melkvet in het produkt aanwezig voor minder dan 1 gewichtspercent en lactose voor minder dan 1 gewichtspercent worden niet aangemerkt als andere melkbestanddelen. Bij het vervullen van de douaneformaliteiten is belanghebbende verplicht in de aangifte te vermelden: "enig melkbestanddeel: caseïne/caseïnaat", indien dit het geval is.

Quid? qui 'se etiam nunc subsidiis patrimonii aut amicorum liberalitate sustentant, hos perire patiemur? An, si qui frui publico non potuit per hostem, hic tegitur ipsa lege censoria; quem is frui non sinit, qui est, etiamsi non appellatur, hostis, huic ferri auxilium non oportet? Retinete igitur in provincia diutius eum, qui de sociis cum hostibus, de civibus cum sociis faciat pactiones, qui hoc etiam se pluris esse quam collegam putet, quod ille vos tristia voltuque deceperit, ipse numquam se minus quam erat, nequam esse simularit. Piso autem alio quodam modo gloriatur se brevi tempore perfecisse, ne Gabinius unus omnium nequissimus existimaretur. Nec minus feminae quoque calamitatum participes fuere similium. nam ex hoc quoque sexu peremptae sunt originis altae conplures, adulteriorum flagitiis obnoxiae vel stuprorum. inter quas notiores fuere Claritas et Flaviana, quarum altera cum duceretur ad mortem, indumento, quo vestita erat, abrepto, ne velemen quidem secreto membrorum sufficiens retinere permissa est. ideoque carnifex nefas admisisse convictus inmane, vivus exustus est.
Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.
Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.

Ac ne quis a nobis hoc ita dici forte miretur, quod alia quaedam in hoc facultas sit ingeni, neque haec dicendi ratio aut disciplina, ne nos quidem huic uni studio penitus umquam dediti fuimus. Etenim omnes artes, quae ad humanitatem pertinent, habent quoddam commune vinculum, et quasi cognatione quadam inter se continentur.

Ego vero sic intellego, Patres conscripti, nos hoc tempore in provinciis decernendis perpetuae pacis habere oportere rationem. Nam quis hoc non sentit omnia alia esse nobis vacua ab omni periculo atque etiam suspicione belli?

Huic A

Piso autem alio quodam modo gloriatur se brevi tempore perfecisse, ne Gabinius unus omnium nequissimus existimaretur.

Nec minus feminae quoque calamitatum participes fuere similium. nam ex hoc quoque sexu peremptae sunt originis altae conplures, adulteriorum flagitiis obnoxiae vel stuprorum. inter quas notiores fuere Claritas et Flaviana, quarum altera cum duceretur ad mortem, indumento, quo vestita erat, abrepto, ne velemen quidem secreto membrorum sufficiens retinere permissa est. ideoque carnifex nefas admisisse convictus inmane, vivus exustus est.

Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.

Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.

Ac ne quis a nobis hoc ita dici forte miretur, quod alia quaedam in hoc facultas sit ingeni, neque haec dicendi ratio aut disciplina, ne nos quidem huic uni studio penitus umquam dediti fuimus. Etenim omnes artes, quae ad humanitatem pertinent, habent quoddam commune vinculum, et quasi cognatione quadam inter se continentur.

Ego vero sic intellego, Patres conscripti, nos hoc tempore in provinciis decernendis perpetuae pacis habere oportere rationem. Nam quis hoc non sentit omnia alia esse nobis vacua ab omni periculo atque etiam suspicione belli?

Piso autem alio quodam modo gloriatur se brevi tempore perfecisse, ne Gabinius unus omnium nequissimus existimaretur.

Nec minus feminae quoque calamitatum participes fuere similium. nam ex hoc quoque sexu peremptae sunt originis altae conplures, adulteriorum flagitiis obnoxiae vel stuprorum. inter quas notiores fuere Claritas et Flaviana, quarum altera cum duceretur ad mortem, indumento, quo vestita erat, abrepto, ne velemen quidem secreto membrorum sufficiens retinere permissa est. ideoque carnifex nefas admisisse convictus inmane, vivus exustus est.

Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum

confestim urgebatur impleri.

Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.

Ac ne quis a nobis hoc ita dici forte miretur, quod alia quaedam in hoc facultas sit ingeni, neque haec dicendi ratio aut disciplina, ne nos quidem huic uni studio penitus umquam dediti fuimus. Etenim omnes artes, quae ad humanitatem pertinent, habent quoddam commune vinculum, et quasi cognatione quadam inter se continentur.

Ego vero sic intellego, Patres conscripti, nos hoc tempore in provinciis decernendis perpetuae pacis habere oportere rationem. Nam quis hoc non sentit omnia alia esse nobis vacua ab omni periculo atque etiam suspicione belli?

Huic A

Quid? qui 'se etiam nunc subsidiis patrimonii aut amicorum liberalitate sustentant, hos perire patiemur? An, si qui frui publico non potuit per hostem, hic tegitur ipsa lege censoria; quem is frui non sinit, qui est, etiamsi non appellatur, hostis, huic ferri auxilium non oportet? Retinete igitur in provincia diutius eum, qui de sociis cum hostibus, de civibus cum sociis faciat pactiones, qui hoc etiam se pluris esse quam collegam putet, quod ille vos

tristia voltuque deceperit, ipse numquam se minus quam erat, nequam esse simularit. Piso autem alio quodam modo gloriatur se brevi tempore perfecisse, ne Gabinius unus omnium nequissimus existimaretur.

Nec minus feminae quoque calamitatum participes fuere similium. nam ex hoc quoque sexu peremptae sunt originis altae conplures, adulteriorum flagitiis obnoxiae vel stuprorum. inter quas notiores fuere Claritas et Flaviana, quarum altera cum duceretur ad mortem, indumento, quo vestita erat, abrepto, ne velemen quidem secreto membrorum sufficiens retinere permissa est. ideoque carnifex nefas admisisse convictus inmane, vivus exustus est.

Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.

Nec vox accusatoris ulla licet subditicii in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri.

Ac ne quis a nobis hoc ita dici forte miretur, quod alia quaedam in hoc facultas sit ingeni, neque haec dicendi ratio aut disciplina, ne nos quidem huic uni studio penitus umquam dediti fuimus. Etenim omnes artes, quae ad humanitatem pertinent, habent quoddam commune vinculum, et quasi cognatione quadam inter se continentur.

Ego vero sic intellego, Patres conscripti, nos hoc tempore in provinciis decernendis perpetuae pacis habere oportere rationem. Nam quis hoc non sentit omnia alia esse nobis vacua ab omni periculo atque etiam suspicione belli?
