## **Definition Functional Domain "Declaration Processing":**

Declaration Processing covers all activities of Customs professionals dealing with the declaration requirements for transporting of goods across national borders, into, through and out of the EU.

- 1) **Processing of Goods and Cargo Declaration**: Ensuring that all the particulars for the goods, as required by the requested Customs procedures and other related authorities, are completed correctly.
- 2) **Application of Correct Trade Measures**: Ensuring both non-fiscal Customs obligations (e.g. the verification of required permits, licenses related to the Customs declaration) and fiscal Customs obligations (e.g. checking that the correct Customs tariff and duties are applied based on classification, origin and valuation) are met.
- 3) **Operational Risk Analysis**: Identification of risks and potential threats at the premises where the goods are, which might lead to immediate inspections, post-clearance audit, etc.
- 4) **Release of Goods**: Upon the completion of the required controls, and where no discrepancies exist, release of the goods for their intended purpose.

## Roles covered within the "Declaration Processing" functional domain:

- Management Roles:
  - Senior Manager
  - Middle Manager
  - Line Manager
- Expert Roles:
  - Senior Expert
  - Expert
- Operational Roles:
  - o Team Lead
  - Customs Officer
  - Customs Officer Trainee

This means that the role of Strategic Manager was excluded from this functional domain:

• **Strategic Manager:** The Strategic Management level will always be a cross-functional one. This means that the role of Strategic Manager will be covered in a separate document. The idea is that the strategy is set at a national level and takes the available resources i.e. people, materials, and budget into account. This strategy will then be put into practice by the Administration's management team (Senior Management, Middle Management and Line Management), who will translate it to a more functional level ("What does this mean for me/my department?").
