2. Eligibility for a refund

To be eligible for a refund the applicant must be a taxable person established in the EU making taxable supplies in his own Member State (the Member State of Establishment). He must have incurred VAT on expenses in a Member State in which he has no establishment (the Member State of Refund), and he must have made no supplies within that Member State other than reverse charge supplies, or certain exempt transport services, during the refund period.

3. What can be refunded

VAT relating to business activities carried out outside the Member State of Refund if those activities would be subject to tax or exempt with a right to deduct in the Member State of Refund if they had been made there, and VAT relating to supplies on which the reverse charge is applicable in the Member State of Refund.

4. What cannot be refunded

VAT incurred which relates directly to activities which are exempt without the right to deduct.

VAT incurred on expenses on which there are restrictions on the right to deduct in the Member State of Refund.

In VAT Act, the following purchases are listed as non-deductible and thus nonrefundable for VAT purposes:
• A unit of immovable property that the taxable person or his staff uses as a residence, a nursery or a recreational or leisure facility, as well as goods and services connected with it or its use;
• Goods and services related to transportation between the residence and place of work of the taxable person or his staff;
• Goods and services used for business entertainment purposes;
• Passenger cars, multipurpose cars, motorcycles, caravans, vessels intended for recreational or sports purposes, and aircraft with a maximum permissible take-off weight not exceeding 1,550 kilograms, as well as goods and services related to their use.

The following purchases are included in acquisitions that do not qualify for refund:
• Purchases intended for the private consumption of the business entrepreneur or his personnel. Such a purchase is e.g. breakfast in connection with hotel accommodation;
• Purchases for business entertainment purposes, e.g. restaurant, business gifts;
• Purchase of a passenger car and purchase of goods and services related to passenger cars (e.g. fuel, lubricants, maintenance, repair, parts) when the passenger car has not been purchased for purely tax-deductible use. Consequently, the VAT included in the rental costs of a passenger car is refundable only on the condition that the car is used for business purposes entirely;
• Expenses linked to the sale of tax-exempt investment gold.

Tax-exempt purchases, such as international airline flights, do not qualify for refund.

Due to the VAT margin scheme of travel agency services, foreign travel-service companies are not entitled to refunds for purchases of goods and services, for direct benefit of the passengers, made in the name of the travel-service company from other business enterprises.

No refund will be payable for invoices that should be VAT exempt but erroneously include VAT. Thus, if the seller has invoiced the goods or services including VAT but no VAT should be payable in the circumstances, the tax authority will not pay refund. Instead, the buyer should contact the seller to request for refund of incorrect VAT.

5. Proportional deduction

Where the taxable person is only able to deduct a proportion of his input tax because he makes taxable and exempt supplies, that person can only have the amount refunded according to the rules on proportional deduction in his Member State.

Procedures in the Member State of Refund

13. Are copies of invoices required?

Only when additional information specifically requested.

14. The maximum size limit for an attachment has been agreed at 5 mb. What is the applicant to do if they exceed this limit?

Maximum total size of all attachments to one application form is 5MB. For this reason, please keep file sizes reasonable when you scan your invoices. To avoid oversized files, only the following formats are permitted: Tiff, Jpeg and Pdf. We recommend to use the Pdf format.

If changing the format does not solve the problem, it is possible to send the attachment by e-mail.
15. As a Member State of refund, do you require additional documentation for claims submitted by an agent?

The applicant may appoint an agent to submit the application on behalf of the applicant. Applications can equally be filed by Finnish as well as foreign representatives (agents). The application should include a Power of Attorney showing that the agent has been appointed, and specifying the agent’s powers. It should be made clear in the Power of Attorney whether the agent only is appointed for submitting the application or whether he also is entitled to receive the payment in his bank account.

A model of a Power of Attorney can be found on www.tax.fi > Detailed guidance > Guidance > Refund of VAT to foreign businesses established in the EU point 5.4. Engaging the services of an agent or representative.

However, a Power of Attorney drafted by the applicant, will also be accepted if it contains the same information as the model. Period of validity is regarded as indefinite, i.e. the Power of Attorney will remain valid until the applicant terminates its validity. Thus, the first application submitted by an appointed representative (agent) should have a scanned Power of Attorney, with indefinite validity, as a mandatory enclosure. After that, future applications by the same appointed representative (agent) can be submitted without this enclosure, unless changes in the Power of Attorney has taken place. Mandatory information in the application on the appointed representative/agent are the representative’s/agent’s name, complete address including country code, e-mail address and VAT identification number or tax reference number (TIN).

16. Can payments be made to agents?

Payments can be made to representatives (agents). It should be made clear in the Power of Attorney whether the agent only is appointed for submitting the application or whether he also is entitled to receive the payment in his bank account.

17. How will the Member State of Refund communicate with the applicant?

The Finnish Tax Administration communicates with the applicant via mail or e-mail. Finnish Tax Administration sends the Application Receipt to the applicant via Member State of Establishment.

18. Time limits for the processing of an application

The Member State of refund has four months from the date of receipt of an application to notify the applicant of its decision to approve or refuse the application, or to ask for further additional information. Where additional information is required, it has a further two months from receiving that information. Where it has asked for further information, it shall, in any case, notify the applicant of its decision within 8 months of the receipt of the application.

Where the refund application is approved, payment should be made within 10 working days.

19. Procedure for sending additional information to the Member State of Refund
Member States can ask for additional information from persons other than the applicant. In all cases, the information should be provided to the Member State of Refund within one month of the date on which the request is received by the addressee.

The additional information can be in Finnish, Swedish or English.

20. The refund period

An application for VAT refund should relate to a time period that cover at least three consecutive months within the same calendar year, and at most, one full calendar year (in other words, required period length is 3-12 months within same calendar year), full calendar months only. Some businesses might purchase goods and services during November and December, i.e. the last months of the calendar year. Because the application should relate to months within the same calendar year, the application for the end year may be shorter than three months e.g. only cover December.

21. Number of applications accepted per year.

An application for VAT refund should relate to a time period that cover at least three consecutive months within the same calendar year, and at most, one full calendar year (in other words, required period length is 3-12 months within same calendar year), full calendar months only.

22. What is the procedure for appealing against a decision? Are there any time limits for appeals?

The claim for adjustment of refund and debiting decisions may be sent by using the Claim for adjustment of self-assessed taxes, cover page (4015e).

The claim for adjustment should be addressed to

Finnish Tax Administration
P.O. Box 650
FI-00052 VERO

The form serves as the cover for a free-text letter on which the applicant asks for adjustment. The free-text letter must contain an accurate identification of the decision in question, and it must indicate why an adjustment is requested.

The claim for adjustment cannot be submitted electronically. The brief must be either in Finnish or in Swedish. If the applicant uses a representative, an original Power of Attorney, drafted for the purpose of the claim, should be attached.

The claim for adjustment should be made within three years of the calendar year of the period the refund decision concerns. However, a claim for adjustment can always be made within 60 days from receiving the notification of the decision. Decision documents are treated as having arrived to their recipients and therefore notified to them on the seventh day after the Finnish Tax Administration has sent them via postal services.

23. Incorrect applications

If an amount has been recovered in a fraudulent or incorrect way, Member States may recover those amounts.
