

# Export

## eLearning module

This easy-to-use eLearning module is one of the courses from an extensive UCC EU eLearning programme. It provides **fundamental knowledge** in the domain of export and the **related procedures** as defined by the [Union Customs Code \(UCC\)](#).

To fully benefit of the potential of this course, we recommend to integrate the course in your own training programme and to develop a full blended learning programme.

### Target audience

**Customs officials** and **economic operators** involved in the procedures to take goods out of the customs territory of the European Union.

### Available languages

For the availability of further language versions, consult the table on the [EUROPA](#) website.

### Learning objectives

By the end of this 75-minute course, you will have learned about:

- what it means when goods leave the customs territory;
- the different scenarios for goods to leave the customs territory;
- the special cases in the export process.

## Particularities of this course

This course deals first with the regular scenario to export goods and then looks at the other scenarios how goods can be taken out of the customs territory of the European Union. Finally we will explore some special cases such as excise goods and split consignment.

## How were the courses developed?

This UCC EU eLearning programme can be followed as a complete programme. However, the modules are designed to allow the selection of single module in function of your professional competency needs.

The courses were developed under the Customs 2020 Programme. The UCC eLearning programme content was created by a project team comprised of a pool of customs experts from national administrations and private sector in close collaboration with the Taxation and Customs Union Directorate General of the European Commission.
