

Customs Decisions

eLearning module

This easy-to-use eLearning module is one of the courses from an extensive UCC EU eLearning programme. It provides **fundamental knowledge** in the domain of customs decisions and describes the **related processes** as defined by the [Union Customs Code \(UCC\)](#).

To fully benefit of the potential of this course, we recommend to integrate the course in your own training programme and to develop a full blended learning programme.

Target audience

Customs professionals in the public and private sector concerned by any customs decisions taken or to be taken by a customs authority in the European Union.

Available languages

For the availability of further language versions, consult the table on the [EUROPA](#) website.

Learning objectives

By the end of this 90-minute course, you will have learned about:

- the different types of decisions;
- how a decision is applied for and decided upon in a standard process;
- what can happen with an authorisation after it has been granted and how it should be monitored in a standard process;
- where the other procedures deviate from the standard process.

Particularities of this course

The first part of this course focuses on the standard process applied to Customs Decisions. Other processes deviating from the standard process are presented at the end.

Within this module you can easily consult any deviating process to be applied by navigating through the menu.

Decisions covered by the standard process	Authorisations for special procedure and storage facilities	Authorisation for approved exporter
Authorisations related to placing goods under customs procedure and temporary storage	Authorisation for regular shipping service	Authorisations related to transit
Authorisation for AEO	BOI decision	BTI decision

General features

You may interrupt your course. When reopening the course you can resume where you have left the course off. The completed sections are indicated in yellow in the menu.

A course summary of the most relevant information is made available in a printable format in the course library.

How to start and use these eLearning courses?

- Freely download the eLearning module using the [download form](#).
- For .iso, .exe, .html and .html5 choose the regular zip folder.
- For the .scorm version to be integrated in your LMS system choose the scorm zip folder.
- Read the Quick Start Guide available in the downloaded zip folder. It explains how to install the courses to your system.
- Using the course does not require a high level of information technology skills from the learners.
- In case of technical issues contact first your local administrator. If the problem persists, send the description (including screenshots) to taxud-elearning@ec.europa.eu

How were the courses developed?

This UCC EU eLearning programme can be followed as a complete programme. However, the modules are designed to allow the selection of single module in function of your professional competency needs.

The courses were developed under the Customs 2020 Programme. The UCC eLearning programme content was created by a project team comprised of a pool of customs experts from national administrations and private sector in close collaboration with the Taxation and Customs Union Directorate General of the European Commission.
